Tenaska BioFuels Acquisition Will Enhance Company Marketing, Transportation and Storage Capabilities

FOR IMMEDIATE RELEASE: March 5, 2008

OMAHA, Nebraska – Tenaska BioFuels, LLC (TBF) of Omaha has acquired the business of Edible Oil Marketing, LLC (EOM), an Omaha-based biodiesel and vegetable oil marketing and trading company. EOM is active in trading various oils derived from corn, soybeans, sunflowers and palm. The acquisition will also provide TBF with additional biofuels transportation and storage assets, including railcars and terminal storage facilities in Hammond, Indiana, and St. Rose, Louisiana, said TBF Vice President and General Manager Dave Neubauer.

TBF is an affiliate of Tenaska, one of the nation's largest privately held power generation and energy marketing businesses. TBF provides procurement, marketing, logistics and financial services to the growing ethanol and biodiesel industries.

Edible Oil Marketing's personnel will transfer to TBF, and its president, Brian Engel, will become TBF's vice president of trading.

"The acquisition of EOM's business will enhance our ability to offer marketing and procurement services for ethanol and biodiesel producers," said Neubauer. "The addition of EOM brings us instant expertise and credibility in the vegetable oil markets, which is essential for securing feedstock for our biodiesel customers and in helping our ethanol customers as they add corn oil recovery processes to their facilities."

Tenaska BioFuels, LLC

Tenaska BioFuels, LLC (TBF) is an affiliate of Tenaska, an Omaha-based energy company that developed, operates, and owns in partnership with other companies 7,400 megawatts of electric generating plants; is involved in private equity fund and acquisition management; and provides marketing services for the natural gas, power and biofuels industries, with its natural gas marketing affiliate rated as one of the top ten natural gas marketers in North America. TBF provides independent marketing, transportation, storage, risk management, procurement and financial services to ethanol and biodiesel market participants.

Edible Oil Marketing, LLC

Edible Oil Marketing, LLC (EOM), founded in 2000 and headquartered in Omaha, has been an independent marketer of various vegetable oils in the United States and abroad, shipping vegetable oil to and from North and South America, Europe and the Middle East. With annual sales of about \$50 million, EOM has concentrated on helping small to midsize agricultural processors access markets outside of their regional markets. EOM's rail transportation fleet and terminal storage agreements facilitate access to export markets. Before forming EOM, its president, Brian Engel, held senior management positions with Cargill and ConAgra Foods, Inc.
